- 1. Transportation Improvement Program Update

Wendy Bell/Catawba Regional gave the Transportation Committee an update on the TIP Program. She said this was a process to work with SCDOT and local governments to find out their needs on rural projects. The TIP Program is Transportation Improvement Plan and in the past, Chester County fared well with the SC 9 Project. She asked that the

CCTC identify projects for a 5 year and 10 year list. There is no money presently, but should have some in 2013 and there needs to be at least 3 years of projects. Ms. Bell identified the criteria that could be used for this TIP Program, i.e., areas that have had several accidents, economic development, etc. She also stated that local municipalities would be included in this process. Several questions were asked about different roads being widened and Mr. Shaw, SCDOT said that widening tends to be an expensive process and that the CCTC should work toward turning lanes. Chairman Roddey then said that the CCTC would work up a list of roads and get them to Ms. Bell. Ms. Bell said that she would need that list in May.

(Notes from Ms. Bell attached.)
